Dear Ms. Henney,

Thank you very much for the opportunity to communicate with you.

I just wanted to let you know that I support the petition to mandatory label all genetically modified foods and the adoption of strict regulations to test for health and safety of GMO's. Also, a study should be made to assess any environmental damage.

I am on 3 different medications for allergies and can no longer eat the foods that I used to could eat, e.g. corn, tomatoes, soy, potatoes, etc., because they are genetically modified. Accidental contact with any corn or corn containing products, gives me seizures. To me, and others like me, allergies to foods are a life and death situation.

Please, I urge you to support my efforts to label GMO products.

Thank you very, very much!

Sincerely,

Nikki McDonald
